Dear Fellow Librarians, Information Specialists, and Colleagues:

The Medical and Health Librarians Association of the Philippines (MAHLAP) will hold its 31st National Congress and Seminar-Workshop on March 6-8, 2019 in San Antonio Resort, Roxas City, Capiz with the theme, Librarians' Metamorphosis: Contribution and Role in a Rapidly Evolving Society. The main objective of the 31st Congress is to present and identify the evolving role of librarians not only as safe keeper of both print and non-print library resources but also as key players on bridging traditional library skills with the ability to operate and improve library services in a rapidly changing information era. Specifically, it aims to:

- introduce altmetrics and its impact in libraries;
- inform librarians on its role in the implementation of the Data Privacy Act and to know the facts/fallacies of the Freedom of Information (FOI) Act;
- enhance the librarian's skills on how to communicate with confidence in a workplace;
- learn how to shield researchers from predatory journals;
- reevaluate the librarians' ability to cope up with ethics and responsibilities on how to manage a hybrid library;
- capacitate librarians to create strategies for the promotion of library events and services through social media; and
- present best practices in libraries and futuristic strategies such as robotics in libraries.

We will invite experts to share their knowledge and expertise. This congress also applied for CPD points to be granted to participants. We are pleased to invite you to join this seminar-workshop.
